Subject: RE: PAF attached

Natasha

Gordon received a promotion as the VP of School last year on 7/1/16
It was a two year transition with a 5k increase last year and a 5k increase this year.

A PAF was submitted on 7/1 for the 5K increase plus a 3% COLA

- The 3% COLA was an error

A new PAF was submitted to clarify and adjust down to the 5K increase

We rolled our new compensation system in September and didn't include GG as he received a promotion
After discussion/ reflection – we have decided he is eligible for an increase and landed on 2% - which generated the new PAF

A few questions...

1. Who would audit our PAFs?
2. Who is this information being shared with?

Thanks
AG

Thank you, Annette!

I have a question in regards to Gordon Gibbing's compensation increase. In order to be able to justify this if there is an audit and to ensure this is entered and reflected correctly for Gordon's employment record in Workday, can you provide me with some insight as to why Gordon is receiving this 2% increase effective 10/1/17? I just have some concerns from an audit standpoint as I noticed we've received some PAFs for other compensation changes effective 7/1/17 as well. Thanks again!

See notes below ☺

Thank you so much for the follow up!

Annette
